

## Technical Data Sheet ISSUED NOVEMBER 2022

### **PRODUCT DESCRIPTION**

WPA 992 Root Inhibitor Additive is a chemical root inhibitor designed to be incorporated into WPA 992 moisture cured polyurethane membrane.

Although WPA 992 Root Inhibitor Additive is designed to resist most root systems, it is recommended that plants with non-intrusive root systems be used in planter boxes and landscaped areas.

Recommended for:

- Retaining Walls
- Planter Boxes
- Bio-Retention Tanks

### **FEATURES AND BENEFITS**

- Protection against undesirable root attack
- Protects without damaging plants
- Long term protection

### **APPLICATION PROCEDURE**

Add the full content of the WPA 992 Root Inhibitor Additive bottle into a 15lt pail and mix thoroughly for 3-5 minutes or until completely combined. Apply WPA 992 in accordance with the current TDS.

### **Performance Data and Physical Properties @23°C & 55% RH**

- Physical State .....Liquid
- Appearance .....Dark Brown

### **Packaging**

279 ml container.

### **Shelf Life**

Can be stored for up to 2 years when stored in original unopened packaging in a cool, dry, and weatherproof environment. If stored at high temperatures, the shelf life may be reduced.

### **FIRST AID**

If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 131 126).

### **Eye Contact**

If this product comes in contact with the eyes:

- Wash out immediately with fresh running water.
- Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.
- Seek medical attention without delay; if pain persists or recurs seek medical attention.
- Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

### **Skin Contact**

If skin contact occurs:

- Immediately flush body and clothes with large amounts of water, using safety shower if available.
- Quickly remove all contaminated clothing, including footwear.
- Wash skin and hair with running water. Continue flushing with water until advised to stop by the Poisons Information Centre.
- Transport to hospital, or doctor.

### **Inhalation**

If fumes or combustion products are inhaled remove from contaminated area.

- Lay patient down. Keep warm and rested.
- Protheses such as false teeth, which may block airway, should be removed, where possible, prior to initiating first aid procedures.
- Apply artificial respiration if not breathing, preferably with a demand valve resuscitator, bag-valve mask device, or pocket mask as trained.
- Perform CPR if necessary.
- Transport to hospital, or doctor, without delay.

### **Ingestion**

If swallowed do **NOT** induce vomiting.

If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration.

- Observe the patient carefully.
- Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious.
- Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink.
- Seek medical advice.
- Avoid giving milk or oils.
- Avoid giving alcohol.
- If spontaneous vomiting appears imminent or occurs, hold patient's head down, lower than their hips to help avoid possible aspiration of vomitus.

### **Spills**

Prevent from entering drains or waterways. Absorb with sand, earth or spill control material. Collect in properly labelled containers for disposal in accordance with local statutory requirements.

### WARRANTY CONDITIONS

Bayset Pty Ltd trading as Waterproofing Products Australia (Bayset) offers a limited warranty in respect of this product, subject to certain terms and conditions set out in the warranty documentation which has been made available at [www.bayset.com.au](http://www.bayset.com.au). Please contact Bayset directly to obtain a copy of the warranty documentation relevant to this product.

### DISCLAIMER

The technical information and application advice given in this Technical Data Sheet is based on the present state of Bayset Pty Ltd's best scientific and practical knowledge and is intended to give a fair description of the product and its capabilities. As the information contained herein is of a general nature, no assumption can be made as to a product's suitability for a particular use or application and no warranty as to its accuracy, reliability or completeness, either expressed or implied, is given other than those required by law. In practice, the substrate and environmental conditions vary widely, making it essential for the user to determine the product's suitability for a particular application and that the product is not used beyond its physical limitations. The user is responsible for checking the suitability of products for their intended use.

### \*NOTE

Field service where provided does not constitute supervisory responsibility. Suggestions made by Waterproofing Products Australia either orally or in writing may be followed, modified or rejected by the owner, engineer or contractor since they, and not Waterproofing Products Australia, are responsible for carrying out procedures appropriate to a specific application.
